MEMORANDUM FOR: Deputy for Operations, OSA

SUBJECT: Vital Material Inventory – Vital Functions Update

REFERENCES:

25X1A

A. Memorandum from DD/SA to D/O/OSA; dated 28 November 1966; Subject: Same As Above ☐ 2857-66/B)

25X1A

B. Memorandum from D/O/OSA to C/ADP DIV/O/OSA; dated 29 November 1966; Subject: Same As Above ☐ -2878-66)

     In order to reconstitute the operations of the Automatic Data Processing Division in the event of a nuclear attack or disaster which precludes operation of the Headquarters, this Division needs the following documents, equipment and personnel.

     a. A computer program listing, punch card deck, test data, test output listing for each program within the Division library.

     b. A medium to large scale scientific computer complete with systems software with the Fortran compiler.

    c.  Two (2) experienced scientific systems analyst/programmers.

    d.  One (1) UNIVAC 1004 for data transmission purposes. This assumes that a communication line will be provided.

    e.  One (1) IBM 029 key punch.

    f.  Stock pile of computer tapes, punch cards, paper and paper tape. The size of the stock pile to be determined by the replenish cycle available at that time.

    g.  Selected documents stating policy, contracts, support provided and associated information. This file I do not expect will exceed one (1) folder.
